

PRELIMINARY PROGRAM – ASSOCOMPOSITI ACADEMY & DEMO AREA

DAY 1 – Wednesday, June 10

Composites Future Academy – Theme: Technologies for Composite Materials

Sessions with experts and professionals on modeling, forming, and processing techniques for composites.

10.00-10.20	Introduction to composite materials (Prof. Roberto Frassine, Assocompositi)
10.20-10.50	Thermoplastic Matrix Composites (Prof. Alfonso Maffezzoli, Università del Salento)
10.50-11.10	Composite Manufacturing Technologies
11.10-11.20	Composite Processing and Finishing Technologies
11.20-11.30	Q&A

Composites Future Demo Area

14.30-15.00	Laminates Production (hand lay-up, infusion, etc.)
15.00-15.30	Processing and Finishing
15.30-16.00	Testing

DAY 2- Thursday, June 11

Composites Future Academy – Theme: Applications of Composite Materials

10.00-10.20	Composites Applications in the Automotive Sector
10.20-10.40	Composites Applications in the Marine Sector
10.40-11.00	Composites Applications
11.00-11.20	Composites Applications in the Aerospace Sector
11.20-11.30	Q&A

Composites Future Demo Area

14.30-15.00	Testing
15.00-15.30	Processing and Finishing
15.30-16.00	NDT

Associazione italiana compositi & affini

P.zza da Vinci 32- 20133 Milano (Italia)
CF 97405690153 - P.IVA 09368100963
Associazione riconosciuta

e-mail: ufficiostampa@assocompositi.it

PEC: assocompositi@pec.it

web: www.assocompositi.it

tel.+39 3480105920

DAY 3 – Friday, June 12

Composites Future Academy – Theme: Sustainability of Composite Materials

10.00-10.20	Introduction to the Sustainability of Composite Materials (Prof. Marco Longana, Politecnico di Milano)
10.20-10.50	Presentation TBA
10.50-11.10	Presentation TBA
11.10-11.20	Presentation TBA
11.20-11.30	Q&A

Composites Future Demo Area

14.30-16.00	Recycling Technologies (grinding, sorting, reprocessing) and production of new parts using recycled composite materials
--------------------	-------------------------------------------------------------------------------------------------------------------------
